

# CAB-MATE

# BASIC UNIT

**FOR THE DO-IT-YOURSELF—SIMPLE—EFFICIENT—COMPACT—IDEAL FOR APARTMENTS, MOBILE HOMES, RECREATIONAL VEHICLES —** One CAB-MATE saws, grinds, sands, polishes, buffs, handles all diamond tools clean, uses water as coolant, no plumbing needed. **BASIC UNIT \$69.00 F.O.B.**

Includes the following: 6" Diamond Saw Blade, Saw Table, 6" Norton Grinding Wheel, Angled Bezel Grinding Table, Rubber Covered Backup Plate, 400 and 600 Wet and Dry Sanding Discs, Coolant Tube, Wick, Splash Guard, Dops, Dop Cement.

(Mount on bench or board, add a \$5.00 used motor and cut gems)

The CAB-MATE was designed, with the accessories furnished, to efficiently carry out the steps necessary in the easy production of CABACHON gem stones. It begins with an efficient diamond trim saw (sadly neglected in other single spindle units), grinds to template mark using special table to properly angle the bezel, then grinds to shape and sands and polishes same to completion. Other uses can be made of this truly versatile unit with other accessories available from your lapidary dealer, hardware store or from us. Start cutting gems on a CAB-MATE.

See reverse side for full information on the CAB-MATE Preformer Attachment.
